EDITORIAL

Les Canalous is a family affair. In the 1980s, when commercial shipping gave way to of pleasure boating, my grandfather, René, had the idea of introducing this activity to his native Burgundy. His son, my father Claude, who was also passionate about boats and navigation, followed him on the adventure. But the history of the Canalous family is above all the links we have forged with all the river tourism enthusiasts who have worked with us since the beginning, not to mention those who have joined us. Whether it is the sales team, base teams, travel agents and partner rental companies, it is a great pleasure to be able to count on their involvement and enthusiasm over the years.

Today, Les Canalous is the **leading 100% French river and canal boat rental company**. From year to year, from generation to generation, we are committed to meeting your expectations, because we have the responsibility to make your holiday the best it can be.

New products for 2020

In 2020, we are continuing our development towards more environmentally friendly tourism with new electric boats on the Lot (a solar powered boat) and in Sweden, which complete our range of electric boats. We are also pursuing the development of technological tools to promote greater freedom with:

- The generalization of Fleetboxes. These boxes which equip our boats and warn us of any technical problems for a more efficient maintenance of our boats.
- The creation of a complete multimedia tool to make it easier for you to get started on the boat when you leave.

Finally, in order for you to fully enjoy your holidays while forgetting the constraints, we are offering you a tailor-made food delivery service from this year onwards. So please enjoy our brochure and discover our 40 destinations in 10 countries. We will do everything in our power to make your future holiday unforgettable, know that the landscapes and the gentle way of life along the water will make them exceptional.

Managing Director

Environmental commitment to the 'Canal du Midi'

More than 400 boats for all budgets

Best quality at the best price

A team of enthusiasts to help you make your choice

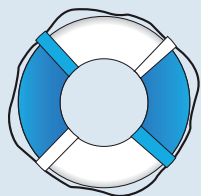

Number one in French rental/construction

Specialists in canal and river tourism since 1982

NEW FOR 2020

DEPARTURE BASE :
CASSENEUIL

ELECTRIC FLEET : SOLAR RIVER BOAT

Les Canalous launched LaPeniche S in 2019 in Alsace, a 100% electric model with an innovative hybrid cockpit (see page 51).

In 2020, board the solar river boat, a 100% electric model powered by solar energy. On board this boat, you can discover the River Lot downstream from the base of Casseneuil, a charming 13th century medieval village.

Currently a model for 6 people, other models will be added in 2020 a Duo, adapted for the disabled, and also a special fisherman version

(See pages 50 and 51)

THE LAPENICHE RANGE AND IT'S HYBRID COCKPIT

For unequalled driving comfort and manoeuvrability: discover the

HYBRID COCKPIT,
better than a double cockpit.
(details page 52)

CABIN HIRE WITH SKIPPER

Free yourself from driving the boat and enjoy a few days on the water, thanks to our cabin rental. Your skipper manages the boat, shows you the manoeuvres if you wish, and manages your stopovers.
(see prices in the price list)

FLEETBOX

Thanks to this brand new connected box, we guarantee you better safety on board, and can also improve our boats and our service (installed on the Canalous France fleet excluding Cahors, Casseneuil, Rohan, St Nicolas des Eaux, Long, Pont à Bar, Montreux Château)

FOOD DELIVERY SERVICE

A few days before your departure, free yourself from holiday shopping and the inconveniences of transporting it: you send us your list and we do it for you.

When you arrive, everything is already on board, all you have to do is settle in comfortably!

(See prices and conditions in the price sheet)

MULTIMEDIA TOOL TO PREPARE YOUR STAY

Modern and easy to use, this new tool will offer you virtual training in the form of a video, which will complement the initiation given to you on the day of departure.

5 good reasons to go on a river cruise

1 To really get away

Discover a different sort of holiday and rediscover places and landscapes that you thought you knew - but didn't really!

2 To relax

Forget stress, leave the hectic rhythm of the daily life behind you, enjoy the calm and serenity of nature... Cruise at 8 km/h and just enjoy taking your time.

3 To share some good times

A river cruise, it is the opportunity to share a great holiday with family, friends... and also to meet new people along the way!

4 To enjoy a great adventure

Did you always dream of taking the helm of a boat? Cast off for an adventure where you are the captain on board - you choose the itinerary, where you stop for the night or just for a break. Everything is possible, you are the captain!

5 To discover

A stay at the water's edge is full of authenticity. Preserved nature, an unsuspected heritage, the treasures of local gastronomy... You have the cards in hand for a cruise full of surprises!

MAP LEGENDS

Bourgogne - Franche-Comté

South Burgundy

Situated in the heart of the Charolais region, Digoin is a central starting point for your cruise. The town is at the junction of three canals, the Canal from Roanne to **Digoin**, or quiet canal, the Canal du Centre, taking you through Paray le Monial and vineyards, and the Canal Lateral à la Loire, which runs through historical towns such as Decize or Nevers.

Val de Loire - South Nivernais

Cruise along the Nivernais canal, departing from **Chatillon en Bazois**, through valleys, past hills, forests and castles. The town of Decize, once a rocky island in the middle of the Loire River, has gastronomy, nature and culture. Sail to Nevers and the Sancerre vineyards and enjoy the charming countryside of this region.

Nivernais - Morvan

The Nivernais Canal is probably one of the most beautiful in France. You will cross the well preserved nature of the Morvan natural park, as you cruise along this canal steeped in history and tradition. The canal was built at the end of the 18th century to aid the floating of timber from the Morvan forests to Paris.

Loiret - Sologne

From **Briare** southwards, you will cruise on the famous canal bridge built at the end of the 19th century by Gustave Eiffel. You will then reach Sancerre and taste the famous white wine and the noless- famous goat cheese « crottin de Chavignol ». To the north, on the Canal de Briare, you will reach first Rogny, known for its 7 locks and then Montargis, known as the « little Venice » of Gâtinais, thanks to its canals and rivers which cut across the region. You will then cruise on the canal du Loing.

Burgundy - Saône

Departing from **Pontallier sur Saone**, you have a large choice of routes - the Saone, the 'Petite Saone', the River Doubs, the Burgundy Canal or the Canal de la Marne à la Saone. Cruise through the vineyards of this region, famous for its wines and fine foods. Enjoy the countryside and wildlife along the way.

Bresse Bourguignonne - Seille

Set off from **Louhans**, famous for its farmers market, and cruise through the vineyards along the beautiful River Seille, a tributary of the River Saone, past half-timbered houses and through a wildlife reserve. The Bresse Bourguignonne area is famous for its chickens 'poulets de bresse'. For wine enthusiasts - you can cruise as far as the well-known Macon or Santenay vineyards.

Franche-Comté

Departing from **Montreux-Château**, Navigating the Doubs canal allows you to travel through large meadows, forests, villages and admire beautiful limestone cliffs at Allenjoie. Franche-Comté offers you its gastronomic wonders (Jura region), heritage (toy museum, Peugeot museum) and nature (areas to fish, swimming and superb views)!

Canal du Midi – Camargue

Canal du Midi

A world heritage site, listed by UNESCO, its oval locks and arched bridges have remained unchanged over the centuries.

Enjoy cruising, walking or cycling in the warm Mediterranean weather, through the flowers and trees, stopping off at local restaurants or monuments.

There is something for everyone, history, gastronomy, wine and sunshine!

Pont du Somail

Camargue

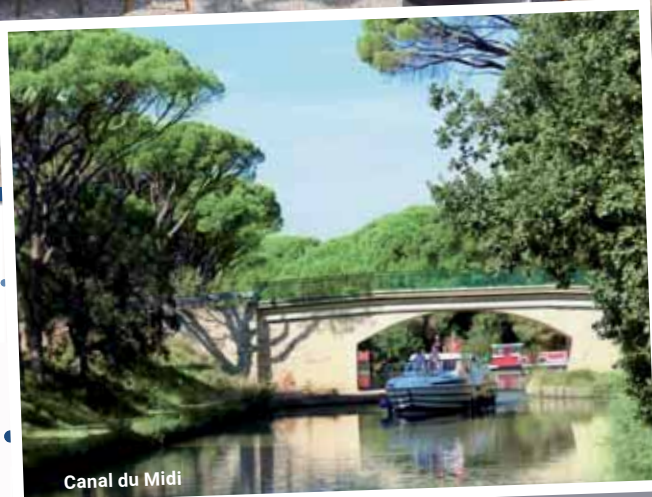

The Camargue is a region of many facets.

Enjoy the sunny Mediterranean beaches, or the typical fishing ports and historical towns. For nature lovers the Camargue is a haven for wildlife – flamingos, wild horses, black bulls.....

And for lovers of good food and wine, try the seafood restaurants and taste the 'Muscat de Frontignan' or 'Noilly Prat' aperitifs.

If you wish to try out real maritime cruising, cross the Etang de Thau and visit the friendly harbours on the way.

Lot-en-Quercy

New!

The River Lot is one of the most beautiful and colourful in France, and you can cruise through St Cirq Lapopie, voted one of France's most beautiful villages.

Admire the surrounding nature and scenery, visit the historic monuments, and taste some of the regional dishes, including the famous foie gras, and 'confit'.

New: the Casseneuil base welcomes you for a navigation downstream on the River Lot, on a 100% electric boat: on this part of the Lot, the locks are automatic or with lockkeepers. Thanks to long stretches without locks, navigation is easy. Swimming is possible everywhere and there are plenty of fish to delight fishing enthusiasts.

Saint Cirq Lapopie

The “Göta Kanal” is also called Sweden’s greatest wonder. It stretches from Sjötorp on Lake Vänern to Söderköping on the east coast - 190 kilometres and 58 locks. Our departure bases are in Söderköping and Sjötorp, and you can choose a one-way or return trip. The one way trip from Sjötorp to Söderköping can be done in one or two weeks. The return trip from either base allows you to get to Lake “Vättern” and back.

Tourist attractions

- 1 - The Berg locks are a famous flight of locks, and the canal's largest site. Here, also, you can play adventure golf
- 2 - Choo-choo and the Smultronstället ice cream parlour in Söderköping, Cloetta, chocolate fabric in Ljungsbro
- 3 - Toy museum in Ljung and motor museum in Motala
- 4 - Sweden's biggest lake sandy beach in Motala “Varamon”
- 5 - Vadstena is a beautiful town from the middle ages with a castle and moat. It is very popular with tourists.
- 6 - Karsborg fortress with its treasure hunt and adventure tour
- 7 - Forsvik, the oldest lock. musical evenings, theatre etc.
- 8 - Töreboda, heated pool
- 9 - Norqvarn, lock area with the children’s mini canal.
- 10 - Sjötorp, canal idyll with several locks and canal museum
- 11 - Hand operated lock in Borensberg

Baltic sea

Kalyazin

Russia

Near Moscow, the Dolgoprudnyi base allows boaters to discover the beauty of Russian landscapes while crossing monumental locks that alone are worth the detour. A real water city, Moscow is connected to 5 seas thanks to the canal : The White Sea, the Baltic Sea, the Caspian Sea, the Sea of Azov and the Black Sea, which earned it the nickname «port of the five seas».

The Kalyazin base, further north, offers the possibility to cruise on the Volga River. This beautiful river and its enchanting landscapes have inspired many artists: writers, painters and lyricists. In Kalyazin itself, you will be astounded by the old St Nicolas church, now flooded, but which still stands proudly splitting the waters with its belfry.

This cruise will obviously be an opportunity to discover a varied and rich architectural heritage, witness to the history of Great Russia. As far as gastronomy is concerned, the locals will want to help you discover their simple and generous cuisine: no eccentricity, but like the cooks themselves, attached to the basics : taste and character.

Tourist attractions

- 1 - Statue of Lenin (37 meters) in Dubna, on an artificial island between the Moscow Canal and the Volga
- 2 - The flooded belfry of the St Nicolas cathedral in Kalyazin
- 3 - Ouglitch, pearl of the Russian Golden Ring : Museum of Hydroelectricity and Museum of Urban Life
- 4 - Myshkin, many museums including the Peter A. Smirnov, creator of the famous Smirnoff vodka

Cross the regions of Brandenburg and Mecklenburg-Vorpommern across lakes of clear water, connected by rivers and canals, and enjoy the surrounding nature and wildlife.

In some parts of this region a license is needed for the boat, instruction is given upon departure and a certificate is issued enabling you to cruise on most of the waterways except between Zehdenick towards Berlin.

Tourist attractions

- 1 - The castle of Rheinsberg
- 2 - Berlin, capital of reunified Germany
- 3 - The beautiful and pure lakes
- 4 - The unforgettable sunset
- + The different festivals in the ports and harbours

PROVISIONAL LICENSE

Special regulations for crossing the large lakes (eg Lake Plau, Kolpin, Flesen). Crossing is only permitted within the channel. On Lake Müritz, navigation must be alongside the green buoys on the west flank of the lake. The wearing of lifejackets is compulsory for all crew members. Before crossing the Plau and Müritz lakes, the crew must be informed of weather conditions at the base. Before and after crossing, the crew must register with the base. During the time of hire, the crew must be reachable by phone.

Polska

Malbork

Żuławy Wiślane - the romantic land in the North of Poland, veiled in history and a spirit of mystery, also called the «Polish Netherlands» where «everything is associated with water». The drainage network, protects the areas located up to 2 m below the sea level. The hydro-engineering equipment dating back to the peaceful Dutch Mennonites has been working continuously over the ages in order to keep the capricious Żuławy under control. The Ostróda-Elbląg Canal is a structure unique in the world. While traveling along certain sections of the canal, a ship is transported on a special platform moving on rails. In this way the ships cover the distance of 2300 meters of dry, grassy land up to a height of 100 meters.

The charm of the loop route of Great-Poland (starting from Ślesin) lays in its diversity. For a while, you sail on canals, afterwards on a fast flowing river, then on a river with locks, then again on canals, to end on a marvelous lake. This loop offers all sorts of sensations: wild nature with breathtaking landscapes on one side, interesting hydro-technical installations and towns worthy of visits, on other side.

HIRE A BOAT WITH A SKIPPER TO GUIDE YOU ALONG OUR CANALS AND RIVERS !

THE SKIPPER WILL :

- OPERATE THE BOAT AND TAKE YOU WHEREVER YOU WANT TO GO
- TEACH YOU HOW TO OPERATE AND STEER THE BOAT
- BE YOUR GUIDE AND EXPLAIN ALL THE SECRETS OF YOUR ROUTE

New!

Have you always dreamt of going on a canal cruise, but never felt capable of driving the boat? Would you like to get away from every day life and enjoy a cruise that is 100% relaxing, without having to manage to operate the boat and go through the locks yourself? Do you just want to get away from it all? There is no doubt, boat hire with a skipper is made for you!

A cruise with a skipper is a cruise with a qualified and trustworthy person, who will ensure that the cruise and maneuvers go ahead safely. Even though a cabin and bathroom will be allocated to him on board, he will be discreet and allow you to fully enjoy your holidays in the heart of nature.

The skipper will be able to share his boating experience with you, to help you choose the best route and if you wish, explain the tricks of the trade – driving the boat, mooring, etc.

As you can see, cruising with a skipper means you can fully benefit from your cruise, with peace of mind and no obligations.

YOU WILL FIND THIS CHARACTER NEXT TO THE TYPES
OF BOATS ON WHICH A SKIPPER IS AVAILABLE.

LÉGENDES

★★★★★ Level of comfort

Boat capacity explained:

Eg. 6/8 + 1 person;

«6» is the number of places in the cabins;

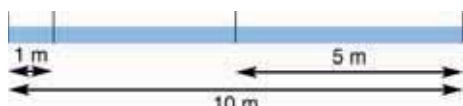

«8» is the number of places using the lounge;

«+1» is the extra place for a child under 6 (generally a bunk bed or folding bed in one of the cabins);

It is never advisable to use the maximum number of beds, comfort on board would be reduced in this case and equipment (refrigerator, bathrooms...) insufficient for a week or more.

The categories are from 1 to 6 and are used to determine the security deposit, the hourly navigation rate, the price of final cleaning, cruise plus insurance and the all-inclusive cruise package.

Boat layout charts: in the single and double berth columns, the +1 or +2 represents the available berths using the lounge.

Boat scale : about 1/150

Pictures and drawings are not contractual

Shore power: can be connected to 220v power when docked

Boat equipped with a bow thruster (propeller placed in the bow of the boat enabling the boat to be steered sideways and making maneuvering easier)

Second driving position: boat equipped with a second outside cockpit.

Boat equipped with a dishwasher, remember to bring your dishwasher tablets

Electric toilets

Air Conditioning: often limited to the lounge area, cools by a maximum of 2 or 3 degrees

Plancha table provided on board, with a gas refill

DVD player

Favourite boats, good value for money

Nespresso® type coffee maker provided. Remember to bring your coffee capsules.

Cabins equipped with a berth named "coffin berth" have a low ceiling, with less than 1m between the mattress and the ceiling

ELECTRIQUE FLEET

heading to the future

Embark on a boat from the electric fleet and head for the future, cruising on an all new model of boat, forefront of innovation. This fleet has been designed to take on all the challenges of the 21st century: respect for the environment, exceptional manoeuvrability, hybrid cockpit, all combined with cosy comfort and great habitability ...

New in 2019 – LaPéniche S :

this innovative model is fully in line with the 'green' approach undertaken for several years by Les Canalous through their various commitments. With its traditional form, LaPéniche S will blend in perfectly with the countryside, but it is nonetheless a model of a modernity: 100% electric, it is silent and non-polluting. It combines wonderfully respect of the environment and great habitability: with no less than 5 cabins and 4 bathrooms, this model will be ideal for all those eager for outside adventures and family reunions, all in complete privacy.

PROPRIETAIRE FLEET

Maneuverability, open spaces and comfort

LaPéniche P
offers a large living space on board for 4 to 7 people and can be manoeuvred with surprising ease, thanks to stern and bow thrusters. But the true innovation lies mainly in its hybrid cockpit which, thanks to the electric sunroof, can be used for both inside and outside driving, without having to change places: the steering is optimized for total pilot comfort. The main advantage of the sliding side window with the electric roof is that it allows direct access to the gangway: you can control your manoeuvres while keeping one hand on the wheel to correct your trajectory.

The + Practicalities

Cleaning service

This service will take care of the cleaning of the inside and outside of the boat when you return from your cruise.

Green cleaning set*

We offer in many bases a green cleaning set for sale, which respects the environment. It contains:

- + washing up liquid,
- + toilet paper,
- + 3 bin bags,
- + 2 sponges,
- + 2 small soaps,
- + 1 box of matches.

Tea towel set*

In order not to burden yourself any more than you already are, we rent out a tea towel set, with 3 tea towels.

Towel set*

Lighten the load of your packing, we rent out a towel set, with 2 hand towels and 1 bath towel per person.

Hotel service*

Opt for the hotel service. When you arrive onboard, your beds will already be made, the towel set and the cleaning kit will be laid out in the boat.

Liberty pack

This pack includes:

- + the rental of 1 basic bicycle,
- + the cleaning service,
- + the Cruise Plus,
- + the hourly navigation rate.

This allows you to settle everything before departure.

Concierge service*

Benefit from a personalized service with a bilingual agent at your service from Monday to Saturday, from 9:30am to 12pm and from 2pm to 5pm. He will follow up on your booking, book your transfers from the airport or the base, taxi, but also visits to the museum, restaurants, and even manage your particular demands (delivery of champagne...)

Waterways map

You will find in these guides the detailed map of your cruise (locks, tunnels, places to refill your water tank etc) but also different interesting services for tourists in the local towns and villages: an essential product to prepare your cruise! (Please note that in France, this waterways guide is available for free consultation onboard the boat).

Be careful: on certain routes two maps may be necessary.

The + Hobbies

Renting a fishing rod and buying a fishing permit

Message to all amateur fishermen: we provide a fishing rod with a new line and bait: ideal to catch whitebait! We remind you that a permit is generally compulsory to fish in a public domain. Some bases can provide them for you. Otherwise, the closest place to get one will be indicated.

You can also buy it directly online via the website: www.cartedepeche.fr

Renting a BBQ, plancha (grill plate) or a plancha table*

What could be friendlier than to end a day of cruising around a barbeque (or a plancha).

Be careful; if you rent a barbeque, do not forget your charcoal (Canal du Midi, Camargue and Charente: barbecue forbidden).

Deck chairs*

Want to relax in the sun on the deck of your boat? These deck chairs are made for you!

*Included on the PREMIUM fleet.

CHOOSING MY EXTRAS*

3

* Extras and services available in many bases (see price list)

The + Family

Baby Set

It includes a high chair, a bathtub, a folding cot and a life jacket and in the case of renting a bicycle, a child seat.

Be careful: most of the time, the cot can only be installed in the lounge. This set will be at your disposal to make life onboard more pleasant for parents and baby. Do not forget to ask when booking. It is free wherever it is offered.

Crew uniforms

On request, we can deliver on board your boat a captain's peaked cap, T shirts or striped long-sleeved T shirts, embroidered with each crewmember's name.

Crew uniforms

On request, we can deliver on board your boat a captain's peaked cap, T shirts or striped long-sleeved T shirts, embroidered with each crewmember's name.

The + Mobility

Renting bicycles

To go shopping or take a nice stroll along the waterway, we offer adult and children bikes for hire.

Car transfer

In the case of a one-way cruise, you will be offered on certain bases, the transfer of your car from the departure base to the arrival base. Fee varies according to routes. It is best to book this service in advance. In some places, shuttle bus, taxi or train can be a possibility.

Car park - Garage

Free parking of your vehicle will be possible in many bases. It is often possible to get a locked but uncovered car park (an additional charge is requested).

PREPARING MY TRIP

4

You have chosen your region, your boat and your extras, and your reservation is now made. Less than one month before departure, your voucher and your logbook in hand, it's time to plan your journey!

The following pages will provide you with valuable information to help you in this preparation, so please read them carefully before you go, and contact your travel agent for further information.

What should I pack?

Let's start with the case itself: ideally plan to use flexible bags such as sports bags: aboard a boat, space is limited and rigid suitcases may take up too much space during your stay.

We recommend that you take light clothing (shorts, swimsuits) and some rain gear and warmer clothes depending on the season. Tennis shoes are required, dress shoes are not advisable as they are inappropriate for boats and so can be dangerous.

FPP Travel boats are fully equipped, you'll find that you need to pack little in your bag! (see page 78)

Essentials: your camera, a torch, binoculars, a deck of cards and something to read.

Reception at the departure base, times for boarding and returns

Whether you arrive by car, train or plane, the bases are ready to welcome you. To help you reach your starting point, an access plan will be sent to your agency with your voucher. On arrival, the base manager and his team will offer you their warmest welcome. No need to arrive early as most boats leaving in the afternoon are returned to the base the same day. We must therefore allow the necessary time for our team to prepare your boat before departure. Why not plan to arrive an hour before the scheduled time? This will leave time to stock your boat from the local shops.

The paperwork (license, inventory, installation) and explanations about how the boat works, take time: approximately 2 hours.

Departure and return times

Week days	Departure Day: Monday, Tuesday, Friday or Saturday, depending on the base and return Monday, Tuesday, Friday or next Saturday Ireland: departure every day except on Sunday Poland: boarding on Sunday The Netherlands: Friday to Friday or Saturday to Friday	Arrival from 3 pm Boarding and explanation between 4 pm and 7 pm Poland: on Sundays at 12 noon The Netherlands: from 2pm on Friday or 9am on Saturday	Return at 9 am Poland on Saturdays at 12 noon The Netherlands: return at 10 am or 3pm on Friday (for the weeks with departures on Saturdays)
Week-end	Saturday morning (or Friday evening depending on availability, to be confirmed one week before departure)	Arrival and boarding between 10 am and 11 am (Fridays between 4 pm and 7 pm) Italy, Friday at 3pm (on request)	Return Monday morning at 9 am
Mini week	Departure on Monday	Arrival from 3 pm Boarding and explanation between 4 pm and 6 pm Italy: between 3 pm and 6 pm (on request)	Return on Friday at 9 am

Ready to set sail!

You do not have a sailing license and are worried about driving the boat? Rest assured! The handling is quite simple and our teams on the bases will take the time to show you how the different equipment works and introduce you to the maneuvers and docking. The boat works with two commands: a throttle lever with two positions (front and rear) and a wheel to steer: you see, it's simple!

Travelling at an average speed of 6kmph. enjoy your holidays with a peaceful soothing rhythm, gently travelling on the water. Enjoy the scenery from a new perspective and feel free to punctuate your cruise with a few stops, gourmet, historical or sports. There will be something for everyone!

Don't forget your cameras: You won't want to miss herons, black kites, egrets, mallards, kingfishers...!

Important: during your cruise, you sometimes come across mariners for whom sailing is their livelihood. They always have priority, it's the rule!

Tip: do not anger fishermen. When you come across them on the banks, remember to slow down in order not to create too much backwash, and move over a little so as not to break their lines. You will soon make friends!

When you reach your first lock, don't panic! **The lock is simple, and not dangerous**, as long as the basic safety rules are followed. You will usually be assisted by the lock keeper, who will appreciate a helping hand if you can, for the operation of the doors and sluices, when they are not automatic. In France the locks are free. They are normally open daily from 9am to 7pm.

Important: times may vary according to season. Some bank holidays are not worked by the lock keepers (Easter Sunday, 1 May, 14 July, 1 November) Check with your travel agent.

Manual locks! On some waterways (including the Charente, Lot upstream and the Seille), locks are manual. It is you who maneuver through them, so allowing you greater freedom of navigation, without time constraints, from sunrise to sunset. These cruises are more physical, however, and are not recommended for a first timer, for persons who have difficulty moving, or who have young children with them.

Frequently Asked Questions

You can find, on the next two pages, the practical questions most frequently asked by our clients, and their answers:

How many people can board?

Our boats are designed for 2-12 people depending on the model. A minimum of one adult, with a person of at least 16 years, is required for all rentals. Babies and children, even toddlers, count as one person.

What are the conditions for one way navigation?

As conditions can be uncertain, one-way trips and their direction are confirmed 48 hours before boarding. A supplement will be charged for this option. One way trips are not possible with a fleet of more than 2 boats.

Is it necessary to leave a deposit?

Two deposits are required for boarding, one for the boat and one for the cleaning.

The deposit for the boat is required in all cases, including when you purchase cruise insurance. The amount varies depending on the type of boat. It covers the franchise and is paid back upon return, if the boat and its equipment were not damaged.

The cleaning deposit will be returned once the boat has been returned clean. It is not payable if you have taken the cleaning option.

Do you offer cancellation insurance?

Yes, with cancellation insurance, you can obtain a refund of amounts paid in certain cases of cancellation (see rental conditions)

What is Cruise Plus insurance?

This insurance covers the interruption of the cruise, damage to the propeller, personal injury, bicycle riding (for bikes hired from one of our bases), and damage caused to a third party. It guarantees the refund of the deposit only in the event of damage to the boat (it does not cover the equipment of the boat: table, parasol, chairs, appliances etc.). Subscription to Cruise Plus insurance does not exempt you from paying the deposit for boarding and is part of a collective contract (Copy of the terms and conditions on request).

What supplement must I pay in addition to renting the boat?

The only mandatory fee is the hourly navigation rate. Upon departure refuelling has been done. You will be charged on your return for the engine hours you have used. This package differs depending on the type of boat and the number of hours navigated. It covers oil consumption and fuel. You should allow for approximately 5-6 hours cruising per day. The price can vary with the price of fuel.

Can we obtain assistance during our stay?

Technical assistance is available seven days a week if needed. Despite careful maintenance of boats, the mechanics of them can sometimes be temperamental. In this case, refer to the documents that were given to you when boarding.

Are the boats equipped with air conditioning and heating?

All boats are equipped with pulsed air heating. This heating is for your comfort to warm up inside the boat. However, it does not maintain a constant temperature. Only Premium vessels in France (and some models in European fleets) are equipped with air conditioning. However, it is limited to the lounge and cools the atmosphere by a few degrees, 2 or 3 maximum, rather than maintaining a constant temperature. Only works when docked using shore power.

Can we get water during the cruise?

The water tank of your boat is full before departure. With a capacity of 200 to 1400 litres depending on the model, it provides for about 1-2 days. It is then necessary to fill up with water at points indicated on the waterway map provided on board.

Should we stock up on fuel while sailing?

Fuel reserves are for an autonomy of 60 hours of sailing, about 2 weeks, for most trips, so you do not have to worry about refuelling. For longer stays, the instructions will be given at the start. The volume of refrigerators is given for guidance only and may vary by region.

Is gas supplied?

A 13kg gas bottle is provided for heating, cooking and the oven. On some models it also supplies refrigerators. These refrigerators are less efficient in very high outdoor heat and should not be overloaded, the door must be opened as little as possible. The volume of refrigerators is given for guidance only and may vary by region. Some Penichette® barges and some Tarpon in Deutschland (see table page 73) are equipped with heating by oil instead of gas. The additional gas bottle is not supplied on board in this case. The fuel for this heating will be invoiced, the price can vary depending on the price of oil, please contact your agency.

Is there electricity on board?

Running the engine 4-5 hours per day, you will produce electricity for 24 hours of use. However, electricity aboard a boat must be used sparingly and cannot provide the same comfort as in a home. Often 12 volts, or 24 volts stored in batteries, which supply refrigerators, the electricity allows the use of light, ventilation, and sometimes on 220 volts, air conditioning, dishwashers, etc. Devices that use 220 volts must be used during navigation or while docked using shore power, and they cannot be used together (eg air conditioning + dishwasher). In some areas, the shore supply is scarce, or, in the ports, too weak to use the equipment aboard. 220 volt outlets, when they exist, can only be used when connected to the dock. The volume of refrigerators is given for guidance only and may vary by region.

Anyone requiring the use of an electric breathing apparatus must inform the Company at the time of booking and be aware that the power supply required for electricity is not always available to operate an electric breathing apparatus.

What is the size of the beds?

There is no standard length and width of berths for boats. The average length is 1.90 m but may in some cases be limited to 1.83 m. Double berths: they are on average 1.40 m wide, but can be reduced to 1.15 m. Single berths: they are on average 0.80 m, but in some cases they can be reduced to 0.65 m.

Coffin berths - «coffin» sleeper berths have low ceiling, with less than a meter between the mattress and the ceiling.

Convertible seat in lounge or dinette. Contact your agency for the dimensions for your boat model.

The measurements given in the boats descriptions are indicative and may vary according to models.

What is the bow thruster?

Some boats on some bases are equipped with a bow thruster. It is a propeller placed in the bow of the boat enabling the boat to be steered sideways. This greatly facilitates maneuvers. However, its use is tricky on canals where there is more risk of sucking in mud and rocks along the banks. In case of breakdown during the cruise, it is often impossible to repair. In this case, the cruise will continue without the bow thruster. If the customer requires repair during the cruise, it will be billed. Because of the vagaries of navigation, it is possible that the boat with a bow thruster that you reserved is not available on the day of departure. In this case, it will be reimbursed on the basis of a flat fee: 10 € per day without the propeller during the cruise.

What is the temporary license?

For customers who do not have a license, a temporary license will be issued for the duration of the cruise, after the short training session. As for the handling of the boat, do not worry, it's quite simple and the teams on the bases will take the time to show you how the different equipment works and introduce you to steering maneuvers and docking. The temporary license does not give access to certain large gauge waterways: Rhine, Rhone, Seine, Loire etc. It is strictly prohibited to use these waterways. Failure to comply will result in the immediate discharge of the client, with no refund. In addition, the return of the boat will be borne by the customer.

What are the instructions in case of strong winds?

Navigation on the Thau lake in Camargue, but also on lakes in Germany, including the Müritzssee and Plauersee, is made more difficult by strong winds, and calls for the vigilance of the driver. With a wind force of over 4 on the Beaufort scale, we ask boaters to take shelter in a port and wait for the wind to drop. In the case of the Thau lake, one-way between the Canal du Rhône to Sète and the Canal du Midi can be upset or cancelled due to weather conditions. If not attributable to the rental company (net caught in the propeller, getting stuck etc.) and requiring the intervention and / or towing of the boat through the SNSM or any other company, costs due for this intervention will be billed directly to the customer.

What happens in case of floods or drought?

Some rivers and some canals are prone to flooding or water shortages, mainly in spring and autumn. These events may require us to change the departure base and your cruise to another waterway or offer you to postpone. In all cases, changing the departure base or replacement of the itinerary do not constitute grounds for cancellation or refund of your cruise.

Breathing apparatus

It is common for our customers to use sleep apnea devices. Don't worry, this situation is common and will not prevent you from enjoying your stay, as long as certain precautions are taken when organizing your cruise :

- If your device requires 230V, it is necessary to plan to stop at the dock every evening and bring an extension cord for each person equipped with this type of device. Attention, in ports other than our Canalous bases, the night with electricity will be charged to you (rates vary according to the towns). Depending on where you stop, the necessary power supply is not always available to operate an electric breathing apparatus.
- If your device can be plugged into the 12V cigarette lighter socket (less than 300W), you can plug in for the night, provided you have sailed for at least 5 to 6 hours during the day and have thus recharged your batteries. You will need a cigarette lighter socket converter (available for rent on some bases) and an extension cord. In this case, only one device can be connected

Depending on the suppliers of this type of equipment, there is also the possibility on request of obtaining a smaller, portable, battery-powered model: we advise you to contact your pharmacy or usual supplier to find out more about this possibility
